Independent Auditor's Report

Berkeley County Emergency Ambulance Authority 400 West Stephen Street Suite 207 Martinsburg, West Virginia 25401

To the Board of Directors:

Report on the Financial Statements

We have audited the accompanying financial statements of the Berkeley County Emergency Ambulance Authority, Berkeley County, West Virginia (the Authority), which comprise the statement of net position as of June 30, 2021, and the related statements of revenues, expenses and changes in fund net position, and cash flows for the year then ended and notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Authority's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Board of Directors Berkeley County Emergency Ambulance Authority Berkeley County, West Virginia Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Berkeley County Emergency Ambulance Authority, Berkeley County, West Virginia, as of June 30, 2021, and the changes in its net position and cash flows, thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include Management's discussion and analysis and schedules of net pension liabilities and pension contributions, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Authority considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the Authority's basic financial statements taken as a whole.

The introductory section presents additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditure of Federal Awards (Schedule) also presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The Schedule is management's responsibility and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this Schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the Schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section to the auditing procedures applied to the basic financial statements and, accordingly, we express no opinion or any other assurance on it.

Board of Directors Berkeley County Emergency Ambulance Authority Berkeley County, West Virginia Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2021, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

November 24, 2021

June 30, 2021

The discussion and analysis of the Berkeley County Emergency Ambulance Authority's (Authority) financial performance provides an overview of the Authority's financial activities for the fiscal year ended June 30, 2021. Please read it in conjunction with the Authority's financial statements.

FINANCIAL HIGHLIGHTS

The Authority's net position increased \$1.5 million as a result of this year's operations or 20 percent compared to the previous year.

The Authority's operating revenues increased \$0.7 million or 11 percent compared with the previous year and operating expenses increased by \$0.5 million or 10 percent compared to the previous year.

Operating income increased by \$0.2 million or 15 percent compared to the previous year.

The Authority expended \$1.3 million for capital assets during 2021, which consisted of construction of Station 987 improvements, communication equipment, medical equipment, two ambulances, and other miscellaneous equipment. The Authority expended \$0.1 million for two duty vehicles during 2020.

Fixed debt obligations were \$2.0 million for 2021 and \$2.1 million for 2020. For 2021, the Authority had no new fixed debt financing. For 2020, the Authority financed \$0.2 million of Station 97 construction costs with note payable proceeds.

The COVID-19 pandemic had a direct effect on revenues (lost revenues) and operating expenses (increased compensation and other costs) during 2021 and 2020.

During the years ended June 30, 2021 and 2020, respectively, the Authority received funding in the amounts of \$1.3 million and \$0.9 million to provide financial relief associated with the COVID-19 public health emergency. These funds represent reimbursements for payroll and related costs, lost revenues, and other miscellaneous costs of the Authority.

The Authority was in the construction phase of a \$0.5 million addition to Station 987 at June 30, 2021 with \$0.2 million of construction costs incurred during 2021. The addition is being internally funded.

The Authority's contractual payments to pension plans amounted to \$0.3 million for both 2021 and 2020.

USING THIS ANNUAL REPORT

1. Management's Discussion and Analysis

The Management's Discussion and Analysis is intended to serve as an introduction to the Authority's financial statements. The Authority's financial statements and notes to the financial statements included in this report were prepared in accordance with Generally Accepted Accounting Principles applicable to governmental entities in the United States of America for proprietary (enterprise) fund types.

USING THIS ANNUAL REPORT (continued)

Financial Statements (continued)

2. Financial Statements

The financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to private-sector business. They consist of the Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and Statement of Cash Flows.

The Statement of Net Position presents information on all the Authority's assets and deferred outflows and liabilities and deferred inflows, with the difference between the two reported as net position. Increases or decreases in net position will serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Position presents information showing how the Authority's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in different fiscal periods (e.g., depreciation and earned but unused vacation leave).

The Statement of Cash Flows presents the Authority's sources and uses of cash and changes in cash balances between the current and prior year.

The basic financial statements report all Authority financial activities. The activities are primarily supported by direct billing and service fees. The Authority's mission is to provide emergency ambulance service to all residents of Berkeley County, West Virginia, and to provide basic and advanced life support and medical transport services.

3. Notes to Financial Statements

The Notes to Financial Statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The Notes to Financial Statements can be found in the financial statements mentioned above.

REPORTING THE AUTHORITY AS A WHOLE

The analyses below focuses on net position (Table 1) and changes in net position (Table 2) of the Authority's financial activities.

Table 1 - Net Position (in Millions)

	2021	2020
Current and other assets Capital assets	\$ 4.6 6.5	\$ 4.2 5.7
Total assets	11.1	9.9
Deferred outflow of resources	0.7	0.4
Total assets and deferred outflows	\$ 11.8	\$ 10.3
	2021	2020
Debt outstanding Other liabilities	\$ 2.0 0.6	\$ 2.1 0.4
Total liabilities	2.6	2.5
Deferred inflow of resources	0.2	0.3
Total liabilities and deferred inflows	2.8	2.8
Net position:		
Net investment in capital assets	4.4	3.6
Restricted	0.2	
Unrestricted	4.4	3.9
Total net position	9.0	7.5
Total liabilities, deferred inflows and net position	\$ 11.8	\$ 10.3

Net position of the Authority increased by 20 percent (\$1.5 million). Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, increased from \$3.9 million at June 30, 2020, to \$4.4 million at the end of this year.

The Authority's investment in capital assets was \$6.5 million for 2021. Investment in capital assets increased by \$0.8 million or 14 percent compared to the previous year after deducting depreciation. The Authority uses these capital assets to provide ambulance, life support, and transport services to its users; consequently, these assets are not available for future spending.

REPORTING THE AUTHORITY AS A WHOLE (continued)

The Authority's collective net pension assets decreased \$0.3 million compared to the previous year. Pension related deferred outflows increased \$0.3 million compared to the previous year. Pension related deferred inflows decreased \$0.1 million compared to the previous year.

Table 2 - Changes in Net Position (in Millions)

	2021	
Operating revenues	\$ 7.0	\$ 6.3
Operating expenses	5.5	5.0
Operating income Non-operating	1.5	1.3
revenues (expenses)		
Changes in net position	\$ 1.5	\$ 1.3

The Authority's operating revenues increased \$0.7 million compared to the previous year, primarily from COVID-19 pandemic relief funds. Operating expenses increased by \$0.5 million compared to the previous year or 10 percent. Operating expenses increased primarily as a result of costs associated with the COVID-19 pandemic.

BUDGETARY HIGHLIGHTS

For the year ended June 30, 2022, budgets were prepared by the Authority and were approved by the Authority's Board of Directors. The budgets were primarily used as a management tool and have no legal stature. The budgets were prepared in accordance with the modified accrual basis of accounting which is different than generally accepted accounting principles used to prepare the basic financial statements.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2021, the Authority had \$6.5 million invested in a broad range of capital assets, including land, buildings, medical equipment, and medical transport and other vehicles (see Table 3 below). This amount represents a net increase (including additions and disposals) of \$0.8 million, including reductions for depreciation and asset dispositions.

CAPITAL ASSET AND DEBT ADMINISTRATION (continued)

Capital Assets (continued)

Table 3 - Capital Assets at Year-End (Net of Depreciation, in Millions)

	202	21	_	20	20
Capital assets not depreciated - land and construction in progress Capital assets depreciated	\$	0.8 8.3	-	\$	0.5 7.4
Totals		9.1			7.9
Accumulated depreciation		(2.6)			(2.2)
Capital assets, net of depreciation	\$	6.5	=	\$	5.7
Major capital additions during the year ended June 30, 2021:					
Station 987 construction in progress - addition Communication equipment 6 defibrillators 8 Power cots 2 ambulances Other			\$		0.2 0.1 0.2 0.3 0.4 0.1

Major capital additions during the year ended June 30, 2020:					
2 duty vehicles			\$		0.1
Total additions			\$		0.1
Major capital dispositions during the year ended June 30, 2021:					
2 Ambulances			\$		0.1
Total dispositions			\$		0.1
Major capital dispositions during the year ended June 30, 2020:					
Ambulance and duty vehicle			\$		0.1
Total dispositions			\$		0.1

CAPITAL ASSET AND DEBT ADMINISTRATION (continued)

Capital Assets (continued)

Debt

At year-end, the Authority had \$2.0 million in bank debt outstanding compared to \$2.1 million for the previous year.

There was no new debt financing during 2021 and \$0.2 million during 2020.

Other long-term obligations include the earned but unused vacation leave and collective net pension liabilities. More detailed information about the Authority's liabilities is presented in the notes to the financial statements.

ECONOMIC FACTORS

The Authority's appointed officials considered many factors when setting the fiscal-year 2022 budget. Factors consisted of evaluation of the economy and how the COVID-19 pandemic might negatively impact financial operations. The County's population has a direct impact on the Authority's economic growth.

The Authority is cautiously optimistic about its potential for economic growth in the future. The increasing population and infrastructure improvements are all positive indicators for continued economic growth of the Authority.

CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, customers, and investors and creditors with a general overview of the Authority's finances and to show the Authority's accountability for the money its receives. If you have questions about this report or need additional financial information, contact the EMS Director at 304-264-1921, 400 W. Stephen Street, Suite 207, Martinsburg, WV 25401.

NOTE 1: DESCRIPTION OF REPORTING ENTITY

The Berkeley County Emergency Ambulance Authority (the Authority) is a public corporation, which was created by the Berkeley County Commission under the provisions of the Emergency Ambulance Service Act of 1975 (Chapter 7, Article 15 of the Code of the State of West Virginia, as amended).

The purpose of the Authority is to provide emergency ambulance service to all residents of Berkeley County, West Virginia. In addition, the Authority provides basic and advanced life support and medical transport services. The Authority grants credit to clients served on an individual basis and does not require collateral to secure credit granted.

The Authority complies with Governmental Accounting Standards Board (GASB) pronouncements pertaining to the financial reporting entity. These standards apply to defining and reporting on the financial reporting entity. It defines component units as legally separate organizations for which the elected officials of the primary government are financially accountable and other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

In accordance with the criteria established by the GASB for defining a reporting entity, Berkeley County Emergency Ambulance Authority is considered to be a Component Unit of Berkeley County Council, West Virginia.

The Authority considered all potential component units in determining when organizations should be included in the Authority's financial statements. Based on the above criteria, there are no component units to be included in the Authority's financial statements.

The accompanying financial statements include all accounts of Authority operations.

NOTE 2: BASIS OF ACCOUNTING

Basis of Presentation

The Authority's sole fund is an enterprise fund. Enterprise funds are proprietary funds used to account for business-like activities provided to the general public. These activities are financed primarily by direct billing fees and service fees, and the measurement of financial activity focuses on change in net position (net income) measurement similar to the private sector.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded regardless of the measurement focus applied.

The proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, and then the unrestricted resources as needed.

NOTES TO FINANCIAL STATEMENTS (continued) For the year ended June 30, 2021

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Authority conform to generally accepted accounting principles as applicable to governmental units. The GASB is the accepted standard setting body for establishing governmental accounting and reporting principles.

Public Body

The Authority is a public body corporate and politic pursuant to Laws of the State of West Virginia. The Authority is not subject to Federal or State income taxes, nor is it required to file Federal and State income tax returns.

Ambulance Service Fees

The Authority has implemented a Special Emergency Ambulance Service Fee as permitted by legislative authority under Chapter 7, Article 15, Section 17 of the Code of West Virginia, as amended.

The fee was established for the purpose of maintaining an adequate emergency ambulance system within the geographic boundaries of Berkeley County, West Virginia. An adequate emergency ambulance system is a necessary governmental responsibility to provide for the health and welfare of the citizens of Berkeley County.

Upon receipt of the Authority's estimated budget, the President of the Authority shall request the Assessor provide the Authority's office with a list of all residential "living units." The annual rate established by Ordinance was \$60 per residential living unit for the year ended June 30, 2021.

Ambulance service fees billed must be paid in full not later than September 30th. Fees paid after September 30th are as follows:

October 1st - December 31st \$ 85 January 1st - March 31st \$ 110

On or about April 1st, all delinquent accounts shall be turned over to an appropriate collection agency as engaged by the Authority and or submitted to the Berkeley County Magistrate Court for collection.

Allowance for Doubtful Accounts

The Authority uses the allowance method of providing for uncollectible accounts. The allowance amounted to \$3,741,264 at June 30, 2021.

Property, Plant and Equipment

Property, plant and equipment is stated at cost for purchased items and fair value for contributed items. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range from 5-40 years.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

When capital assets are retired, the cost and accumulated depreciation thereon are eliminated from their respective accounts and any gain or loss on the disposition is reflected in the statement of revenues, expenses, and changes in net position.

The Authority's policy is to generally capitalize property, plant and equipment costing \$10,000 or greater and less costly items that have significant management importance.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, Plant and Equipment (continued)

Interest incurred before the end of construction of an asset is recognized as an expense in the period in which the cost is incurred.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of reporting the statement of cash flows, the Authority considers all cash accounts and all highly liquid debt instruments purchased with an original maturity of three months or less, to be cash equivalents.

Restricted Assets

Restricted assets consist of a construction escrow fund for improvements to Station 987.

Contributions of Goods and Services

Contributions of facilities, goods and services, both volunteered and paid from other sources, are not recorded by the Authority.

Compensated Absences

It is the Authority's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the Authority does not have a policy to pay any amounts when employees separate from service with the Authority. All vacation pay is accrued when incurred and reflected in the financial statements.

Inventory

Inventory consists of medical supplies and is stated at cost, determined on the first-in first-out basis. Quantities are determined by physical measurement or count.

Net Position

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on its use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) laws through constitutional provisions or enabling legislation.
- c. Unrestricted net position Net position that does not meet the definition of "restricted" or "net investment in capital assets."

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Deferred Outflows and Inflows of Resources

A deferred outflow of resources represents a consumption of net assets applicable to a future reporting period and will not be recognized as an expense until then. Deferred outflows related to the Authority's defined benefit pension plans will be recognized based on actuarial determinations.

A deferred inflow of resources represents an acquisition of net assets applicable to a future reporting period and will not be recognized as revenue until then. Deferred inflows related to the Authority's defined benefit pension plans will be recognized based on actuarial determinations.

Net Service Revenue

Net service revenue is reported at the estimated net realizable amounts from clients, third-party payors and others for services rendered.

Operating Revenues

The Authority's Statements of Revenues, Expenses, and Changes in Net Position distinguish between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing emergency ambulance services and basic life support and advanced life support services, the Authority's principal activities. Nonexchange revenues are reported as nonoperating revenues. Operating expenses are expenses incurred to provide emergency ambulance services and basic life support and advanced support services, other than financing costs.

Pensions

For purposes of measuring the net pension liabilities and deferred outflows/inflows of the resources related to pensions, and pension expense, information about the fiduciary net position of the Authority's Public Employee Retirement System (PERS) and Emergency Medical Services Retirement System (EMSRS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the PERS and EMSRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 4: NEW ACCOUNTING PRONOUNCEMENTS

GASB Statement No. 87, Leases, aims to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Statement 87 will be effective for the fiscal year ending June 30, 2022.

GASB Statement No. 91, Conduit Debt Obligations seeks to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. Statement 91 will be effective for fiscal year ending June 30, 2023.

NOTE 4: NEW ACCOUNTING PRONOUNCEMENTS (continued)

GASB Statement No. 92, *Omnibus 2020*, enhances comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB pronouncements. The effective date for Statement No. 92 ranges from fiscal year ending June 30, 2022 to fiscal year ending June 30, 2023, depending upon the effective date of the specific GASB pronouncement being addressed.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* aims to improve financial reporting by addressing issues related to public-private and financial reporting for availability payment arrangements. Statement 94 will be effective for fiscal year ending June 30, 2023.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, clarifies how to determine component units that are defined contribution pension/OPEB plans. In addition, this standard explains how the guidance in GASB Statement Nos. 67, 74, and 84 should be applied to Section 457 plans and supersedes guidance in GASB Statement No. 32 for investment valuations in Section 457 plans. Requirements that change the accounting and reporting for Section 457 plans are effective for the year ending June 30, 2022.

The Authority has not yet determined the effect these Statements will have on its financial statements.

NOTE 5: CASH AND CASH EQUIVALENTS

Total cash and cash equivalents	\$ 3,443,350
Cash on hand	1,000
Money market accounts	3,234,286
Cash deposits in bank checking accounts	\$ 208,064

Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority's deposits at June 30, 2021, were covered under federal depository insurance or fully collaterized by securities held by custodial banks in the Authority's name for deposits in excess of federal depository insurance limits.

NOTE 6: EMPLOYEE RETIREMENT SYSTEMS AND PLANS

Plan Descriptions, Contribution Information, and Funding Policies

The Authority participates in state-wide, cost-sharing, multiple-employer defined benefit plans on behalf of Authority employees. The systems are administered by agencies of the State of West Virginia and funded by contributions from participants, employers, and State appropriations, as necessary.

All of the Authority's cost-sharing, multiple-employer plans are administered by the Consolidated Public Retirement Board (CPRB), which acts as a common investment and administrative agent for all of the participating employers. CPRB issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CPRB website at www.wvretirement.com.

The following is a summary of eligibility factors, contribution methods, and benefit provisions:

Public Employees Retirement System (PERS)

Eligibility to participate: All Authority full-time employees, except those

covered by other pension plans

Authority establishing contribution obligations and benefit provisions:

State Statute

Tier 1 Plan member's contribution rate: 4.50% (Employees hired before July 1, 2015)

Tier 2 Plan member's contribution rate: 6.00% (Employees hired after July 1, 2015)

Authority's contribution rate: 10.00% for fiscal year 2021

Period required to vest: 5 years for Tier 1 and 10 years for Tier 2

Benefits and eligibility for distribution: Tier 1

A member who has attained age 60 and has earned 5 years or more of contributing service or age 55 if the sum of his/her age plus years of credited service is equal to or greater than 80. The final average salary (three highest consecutive years in the last 15) times the years of service times 2% equals the annual retirement benefit.

Tier 2

Qualification for normal retirement is age 62 with 10 years of service or at least age 55 plus service years equal to 80 or greater. The final average salary is the average of the five consecutive highest annual earnings years out of the last fifteen years. The final average salary times the years of service times 2% equals the annual retirement benefit.

Deferred retirement portion: No

Provisions for:
Cost of living
Death benefits

No
Yes

NOTE 6: EMPLOYEE RETIREMENT SYSTEMS AND PLANS (continued)

NOTE 6: EMPLOYEE RETIREMENT SYSTEMS AND PLANS (continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the Authority reported the following liability and asset for its proportionate share of the net pension liability and net pension asset. The net pension liability and net pension asset were measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability and net pension asset was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability and net pension asset was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2020, the Authority reported the following proportions per the actuarial valuation and increases/decreases from its proportion measured as of June 30, 2019:

		PERS	EMSRS
Amount for proportionate share of net pension (asset) liability	\$	78,598	\$ (92,469)
Percentage for proportionate share of net pension (asset) liability	0	.014867%	7.869662%
Increase/(decrease) % from prior proportion measured	0	.000395%	0.144765%

For the year ended June 30, 2021, the Authority recognized the following pension expenses:

	ا ا	PERS		EMSRS		
Pension expense	\$	21,187	\$	74,700		

The Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTES TO FINANCIAL STATEMENTS (continued) For the year ended June 30, 2021

NOTE 6: EMPLOYEE RETIREMENT SYSTEMS AND PLANS (continued)

Actuarial Assumptions and Methods (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which estimates of expected real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Rates summarized in the following table as of June 30, 2020, include the inflation component and were used for the defined benefit plan:

	Long-Term Expected	PERS	EMSRS
	Real Rate	Target Asset	Target Asset
Investment	of Return	Allocation	Allocation
US Equity	5.80%	27.50%	27.50%
International Equity	7.70%	27.50%	27.50%
Private Equity	8.80%	10.00%	10.00%
Fixed Income	3.30%	15.00%	15.00%
Real Estate	6.10%	10.00%	10.00%
Hedge Funds	4.40%	10.00%	10.00%
in a numit Poto		100.00%	100.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.5 percent for the defined benefit plans. The projection of cash flows used to determine the discount rate assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position for the defined benefit pension plans was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability of the plans.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
	6.5%	7.5%	8.5%
Authority's proportionate share of PERS's net pension liability	\$ (200,257)	\$ (78,598)	\$ 24,267
Authority's proportionate share of EMSRS's net pension asset	\$ (896,831)	\$ 92,469	\$ 897,460

Pension plans' fiduciary net position - Detailed information about the pension plans' fiduciary net position is available in the separately issued financial report available at the Consolidated Public Retirement Board's website at www.wvretirement.com. That information can also be obtained by writing to the West Virginia Consolidated Public Retirement Board, 4101 MacCorkle Avenue SE, Charleston, WV 25304.

NOTE 7: RISK MANAGEMENT AND CONTINGENCIES

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters, injuries to employees, and employee health and life. The Authority reduces its exposure to risk of loss by a variety of insurance programs, some of which are purchased from commercial insurance carriers or state agencies.

The Authority is occasionally involved in legal proceedings. Although the outcome of these proceedings often is not determinable, it is the opinion of the Authority's counsel that resolution of these matters will not have a material effect on the financial condition of the Authority.

The Authority is in the process of constructing an addition to Station 987. The total project cost is estimated at \$500,000 and costs incurred through June 30, 2021 amount to \$229,845. The project is being funded internally.

NOTE 8: PROPERTY, PLANT & EQUIPMENT

Changes in the Authority's capital assets consisted of the following for the year ended June 30, 2021:

	Beginning	Additions	Disposals	Ending

2027-2031		550,334	1	73,034		723,368	
2032-2036		636,097		87,271		723,368	
2037-2039		270,850		7,967	(-	278,817	
	\$ 1	,933,416	\$ 5	15,507	\$	2,448,923	

Changes in notes payable are as follows:

Balance at July 1, 2020	Additions	Payments	Balance at June 30, 2021	
\$ 2,078,041	\$ -	\$ 144,625	\$ 1,933,416	

NOTE 10: CHANGES IN LONG-TERM LIABILITIES

Changes in long-term liabilities are as follows:

	Balance at July 1, 2020	Additions	Reductions	Balance at June 30, 2021
Compensated absences Collective net pension (assets) liabilities	\$ 160,856 (319,748)	\$ - 583,102	\$ 14,152 277,225	\$ 146,704 (13,871)
	\$ (158,892)	\$ 583,102	\$ 291,377	\$ 132,833

NOTE 11: UNCERTAINTIES RELATED TO THE GLOBAL PANDEMIC

During the year ended June 30, 2021, local, U.S. and world governments encouraged self-isolation to curtail the spread of the global pandemic, coronavirus disease (COVID-19), by mandating temporary work stoppage in many sectors and imposing limitations on travel, size and duration of group meetings. Most organizations have, and continue to, experience disruption to operations, the impact of reduced consumer spending, and higher operating costs, including the Authority. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them. Accordingly, while it is difficult to quantify the effects on the Authority, it is reasonably possible there will be an effect on the Authority's operations in fiscal year 2022 and beyond.

Federal and state governments have passed legislation, promulgated regulations, and taken other administrative actions intended to assist health care providers in providing care to COVID-19 and other patients during the public health emergency. Sources of relief include the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act, which was enacted on March 27, 2020, which included, among other programs, the Coronavirus Relief Fund and Provider Relief Fund.

The government funding received by the Authority, and the corresponding accounting for the funding is outlined below:

Coronavirus Relief Funds

During the year ended June 30, 2021, the Authority had \$1,225,841 of qualified expenses that are reimbursable through the coronavirus relief fund program established by the CARES Act. According to guidance provided by the Department of the Treasury, funding can be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Funds are passed through the State of West Virginia to the Authority.

Based on the Authority's calculation of qualifying expenses, the Authority has recognized, \$1,225,841 of funds as operating grants on the statement of revenues, expenses, and changes in net position during the year ended June 30, 2021.

Department of Health and Human Services Relief Fund

The Authority recognized \$25,364 of Department of Health and Human Services relief funds during the year ended June 30, 2021 to provide for lost revenues associated with the COVID-19 pandemic. These funds are reported as operating grants in the statement of revenues, expenses, and changes in net position.

While the Authority has utilized all available current information in determining the proper utilization and accounting for these funds, additional regulatory guidance may be issued that could have a material impact on how the Authority has recognized pandemic relief funds.

Berkeley County Emergency Ambulance Authority NOTES TO FINANCIAL STATEMENTS (continued) For the year ended June 30, 2021

NOTE 12: SUBSEQUENT EVENTS

The Authority has evaluated all subsequent events through November 24, 2021, the date the financial statements were available to be issued.

BERKELEY EMERGENCY AMBULANCE SERVICE AUTHORITY BERKELEY COUNTY, WEST VIRGINIA

Notes to the Schedule of Expenditures of Federal Awards 2 CFR 200.410(b)(6) For the Fiscal Year Ended June 30, 2021

NOTE A – BASIS OF PRESENTARION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Logan Emergency Ambulance Service Authority (the Authority) under programs of the federal government for the year ended June 30, 2021. The information on this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Authority.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – PASS-THROUGH ENTITIES

Pass-through entity identifying numbers are presented.

NOTE D - INDIRECT COST RATE

The Berkeley County Emergency Ambulance Authority has elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance. The Authority Does not Charge Indirect Expenses to Federal Grants.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Berkeley County Emergency Ambulance Authority 400 West Stephen Street Suite 207 Martinsburg, West Virginia 25401

To the Board of Directors:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the Berkeley County Emergency Ambulance Authority, Berkeley County, West Virginia (the Authority) which comprise the statement of net position as of and for the year ended June 30, 2021, and the related statement of revenues, expenses and changes in fund net position, and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated November 24, 2021.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Authority's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or a combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Authority's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Board of Directors
Berkeley County Emergency Ambulance Authority
Berkeley County, West Virginia
Independent Auditor's Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Required by Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the Authority's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance with Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance

Berkeley County Emergency Ambulance Authority 400 West Stephen Street Suite 207 Martinsburg, West Virginia 25401

To the Board of Directors:

Report on Compliance for the Major Federal Program

We have audited the Berkeley County Emergency Ambulance Authority's (the Authority) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could directly and materially affect the Authority's major federal programs for the year ended June 30, 2021. The Summary of Auditor's Results in the accompanying schedule of findings identifies the Authority's major federal programs.

Management's Responsibility

The Authority's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the Authority's compliance for the Authority's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements to Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the Authority's major program. However, our audit does not provide a legal determination of the Authority's compliance.

Berkeley County Emergency Ambulance Authority Independent Auditor's Report on Compliance with Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance Page 2

Opinion on the Major Federal Program

In our opinion, the Berkeley County Emergency Ambulance Authority complied, in all material respects, with the compliance requirements referred to above that could directly and materially affect its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

The Authority's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Authority's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opinion on the major federal program's compliance and to test and report on internal control over compliance in accordance with the uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
