The WV Department of Homeland Security has established the
See Something, Send Something **app as part of the Governor's school safety initiative
and general community awareness.**

The ***West Virginia Department of Homeland Security*** has partnered with My Mobile Witness to implement the reporting system. All tips/reports will be monitored by the West Virginia Emergency Management Division's Watch Center 24/7. The Watch Center will forward reports to the appropriate agencies.

Community members can use the App to report "***Crime/Suspicious Activity***"
or "***School Threat or Safety Issues***." Photos and videos can be included and tips can be submitted anonymously. Users can also request help for "Suicide or Addiction."
Reporting suspicious, criminal, threatening, or terrorist activity is an important part of community safety.

Use the appropriate QR Code for your mobile device and follow the steps to get the App set-up.
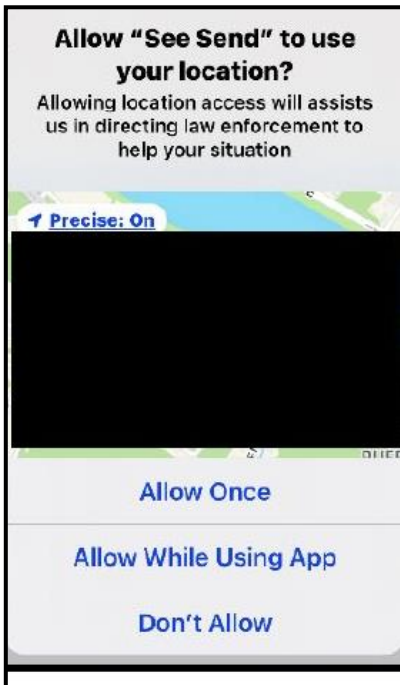

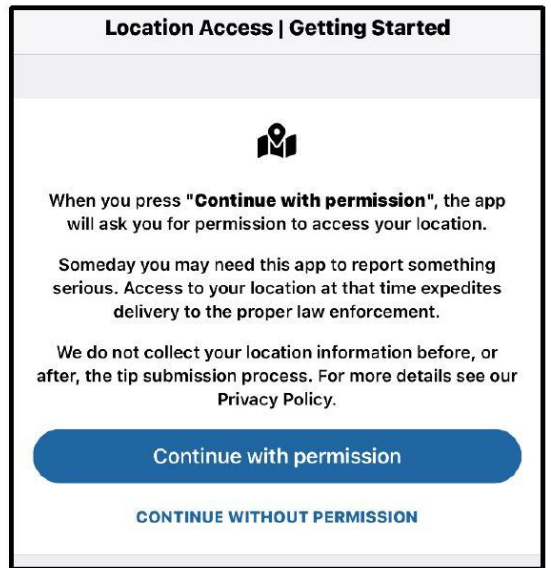

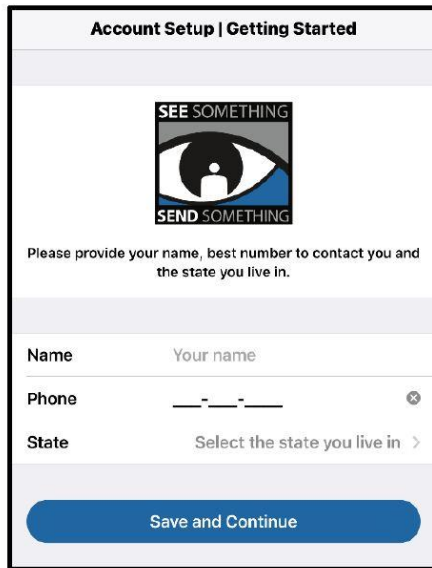

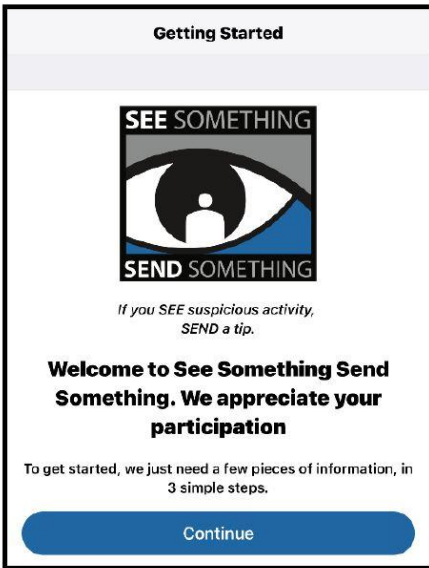

Apple QR Code	**Android QR Code**

If You See Something Send Something for Safety's Sake!

App Setup:

Getting Started

SEE SOMETHING
SEND SOMETHING

If you SEE suspicious activity, SEND a tip.

Welcome to See Something Send Something. We appreciate your participation

To get started, we just need a few pieces of information, in 3 simple steps.

Continue

Account Setup | Getting Started

SEE SOMETHING
SEND SOMETHING

Please provide your name, best number to contact you and the state you live in.

Name — Your name
Phone — ___-___-____
State — Select the state you live in >

Save and Continue

Location Access | Getting Started

When you press "**Continue with permission**", the app will ask you for permission to access your location.

Someday you may need this app to report something serious. Access to your location at that time expedites delivery to the proper law enforcement.

We do not collect your location information before, or after, the tip submission process. For more details see our Privacy Policy.

Continue with permission

CONTINUE WITHOUT PERMISSION

Allow "See Send" to use your location?

Allowing location access will assists us in directing law enforcement to help your situation

Precise: On
